

HIGH VISIBILITY CONTAINERS

IMPROVE WORKER SAFETY

OSHA has recognized visibility as a driver for worker safety in the workplace. The BRUTE® High Visibility containers offer visual distinction and help to improve worker safety.

HIGH VISIBILITY COLORS

Available in colors that are highest on the chromaticity scale, providing visual color cues to support safety.

INCREASED PRODUCTIVITY

Bright colors create high contrast against a variety of backgrounds for quick identification.

COMMERCIAL-GRADE CONSTRUCTION

Proprietary design constructed with the highest quality materials, plus a UV inhibitor, enables use both indoors and outdoors.
