

HOW TO CHARGE MICROFIBER MOP PADS

Charging microfiber prior to use helps to eliminate multiple trips to the sink to prepare cleaning solutions, and ensures the microfiber pads are properly moistened for cleaning.

1 OPEN lid by lifting the front tab.

2A PLACE first stack of mop pads into the Charging Bucket with the logo-imprinted side of the mop pads facing upward.

2B ADD first measurement of the water and/or cleaning solution to the Charging Bucket, pouring on top of the mop pads and moving back and forth to achieve even saturation.

3A PLACE the remaining mop pads in the Charging Bucket making sure that the logo-imprinted sides of the mop pads are facing upward.

3B ADD the rest of the water and/or cleaning solution to the Charging Bucket, pouring on top of the mop pads and moving back and forth.

4 SECURE lid to the Charging Bucket by snapping the front tab into place.

5 OPEN lid by lifting the front tab.

6 ATTACH mop pad by aligning the Quick-Connect frame with the center of a mop pad and press down firmly until the mop pad attaches to the frame. Ensure the frame is fully engaged before lifting.

The HYGEN™ Charging Bucket integrates with the High-Security Cleaning Cart and High-Capacity Janitorial Cleaning Cart.
