

PREPARING DISPOSABLE MICROFIBER CLOTHS

HYGEN™ Disposable Microfiber Cloths remove 99.7% or more of tested viruses and bacteria* with water.

1

REMOVE HYGEN™ Disposable Microfiber cloths out of the plastic bag and place all cloths into the Charging Bucket.

2

ADD water or cleaning solution over cloths and into Charging Bucket. Use 40oz of solution when using full pack of cloths.

3

CLOSE lid of the Charging Bucket and open cloth dispenser as cloths are ready to be used.

TIP

HYGEN™ Disposable Microfiber is safe to use with common cleaning disinfectants such as Quat, Chlorine Bleach and Hydrogen Peroxide.

*Based on third-party testing on VCT surface with water only | EPA Est. No 92100-CHN-1

PREPARING DISPOSABLE MICROFIBER PADS

Preparing HYGEN™ microfiber mop pads prior to use ensures they are properly moistened to cover up to 250sq ft.

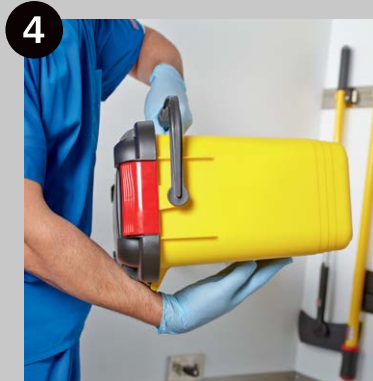

1 **ADD** water and/or cleaning solution to the Charging Bucket. The bucket design features an internal measuring guide. Each graduated step inside the Charging Bucket represents one quart.

2 **PLACE** disposable microfiber pads in the Charging Bucket with the HYGEN™ logo back side of the pad facing upwards. Each bucket holds 50 microfiber pads.

3 **SECURE** leak-proof lid to the Charging Bucket by snapping the end and side tabs into place.

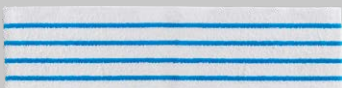

4 **FLIP** Charging Bucket upside down and **leave it upside-down** for 5-10 minutes. This allows the cleaning solution to saturate all of the mops. The pads are now ready to use.

TIP

The Charging Bucket for the Disposable Microfiber cloths and pads fits with the High-Security Cart and High-Capacity Janitorial Cleaning Cart.
