DISPOSABLE MICROFIBER SYSTEM

WHY HYGEN?

The Rubbermaid HYGEN™ Disposable Microfiber System is the solution for optimizing infection prevention, ensuring environmental hygiene, and improving productivity.

The innovative technology knits microfiber yarn into a non-woven substrate, creating unique, disposable microfiber.

**Compatible with quat (cloth); bleach-safe (cloth and mop)

KILLING MICROBES DOESN'T MAKE THEM DISAPPEAR

Traditional disposable products lack scrubbing power, streak and smear, and cannot remove microbes, leaving behind a food source for live pathogens.

Rubbermaid HYGEN Disposable Microfiber eliminates the food source and combines superior microfiber with built-in scrubber technology, in a disposable application, to prevent cross-transmission and reduce the risk of healthcare-associated infections.

Built-In Scrubbers

Innovative microbe-removing technology is complemented with built-in zigzag scrubbers to effectively remove dirt without streaking or smearing.
